Total Kgs	1,000	1,000	1,000	1,000	1,000	1,000	1,000

IMPORTANT REMARKS :

- DOC stands for Day Old Chick
- For the best results; start with the Koudijs Galdus 2mm pre-starter (minimum 150 gram/bird total, preferably more).
- When oil is available; replace 0,5% corn for 0,5% oil.
- Always make sure all birds have access to enough feed and water.
- Carefully follow the provided mixing instructions and thoroughly mix the ingredients for the best results.
- Be biosecurity wise; use disinfection materials, keep separate shoes for the birds houses only.
- Ensure proper quality of the limestone is used. Quicktests are available, ask your local representative for more info.
- To avoid drop in feed intake ; ensure the change of feed (from Starter to Grower feed etc.) happens gradually.
- Please check the website for the full nutritional composition of the feed after mixing.
