Cu	mg/kg	17,4	18,3

Important remarks:

- Note: Mixing directions can change depending on the price and quality of local available raw materials.
- To achieve good results, follow these mixing instructions exactly! Do not alter or change without consult.
 - Always make sure all cows have access to ad libitum forages/silages.
 - Make sure cows always have access to fresh, cool and clean water.
 - The amount of feed for a cow is depending on production level. HP Dairy meal is for cows producing >20L/day.
 - The Dairy meal intake 3 kg up to 6L milk production/head/day.
 - Dairy meal intake >6L milk production/head/day is 1 kg dairy meal per 2L milk production, up to a max of 12 kg intake/day.
 - Dry cows should get 2-3kg/day next to ad libitum low/medium fibre rich forages
 - The beef mixing is suitable to feed to beef before weaning till slaughter. Start with 2kg after weaning till max 5kg at 500kg
 - For more advice, ask the local Koudijs representative.
